

COMMISSIONING

As an operator, HVAC contractor or service provider, you have to ensure that faults are reliably remedied for yourself and for your customers. Faults requiring on-site service assignments can never be ruled out, not even with the most advanced technology. If a fault occurs in our TROX products and systems within or outside the warranty period, our Technical Service Team is there to assist.

In order to ensure that the notification of a fault can be processed as quickly and as efficiently as possible, please ensure that you include the following information:

- Delivery date of the TROX components and systems
- TROX order number and item number
- Product designation
- Brief description of the fault

Report the fault using the online fault notification system

or contact [our partners in the Technical Service Team](#).

TROX South Africa (Pty) Ltd.
